

September 22nd is American Businesswoman's Day

According to the Center for Women's Business Research, 10.1 million U.S. firms are owned by women (75% or more) and they generated \$1.9 trillion in sales in 2008. One in five firms with revenue of \$1 million or more is woman-owned.¹

One such success story that most women recognize is Vera Bradley Designs. Barbara Bradley Baekgaard and Patricia Miller were two new neighbors who discovered they shared an interest in fashion design and soon noticed that women lacked functional, attractive luggage for business trips. With \$500 and the name of Barbara's mother, they developed some prototypes for soft, quilted duffel bags and purses. They were the hit of an in-home clothing show, and in just three years, the firm topped \$1 million in sales and has enjoyed steady growth ever since. Today, Vera Bradley Designs' 200 employees produce over 800 products from a 25,000-square-foot manufacturing center in Fort Wayne, Indiana.²

American Businesswoman's Day is a great time to tell our local businesswomen, "We appreciate your important contributions."
